PROJECT ACCEPTANCE RECORD

Items left blank, ☐, have not been submitted, issued, or accepted.

Code Footprint (CF) Code footprints are to be submitted and reviewed as per K.A.R. 22-1-7.

- ☐ Code Footprint is not required.
- ☐ The code footprint dated Enter Date has been reviewed by Design, Construction & Compliance DCC) and / or Office Kansas State Fire Marshal (OKSFM) and is ☐ (accepted) ☐ (not accepted) as meeting the Kansas Fire Prevention Code (KSA 31-134 and KAR 22-1-1).

Signature by DCC and/or OKSFM shall not be construed to be an approval of items that do not conform to the Kansas Fire Prevention Code. All existing buildings are to comply with the Kansas Fire Prevention Code. It shall be the responsibility of the Owner to develop a plan of correction acceptable to OKSFM for items that do not conform to the Kansas Fire Prevention Code. Signature by DCC and/or OKSFM shall not be construed to be a permit for, or an approval of any violation of any of the provisions of the applicable codes and regulations, unless the item is noted as an alternate means and method on the approved code footprint.

- ☐ Previously accepted code footprint has been revised. The code footprint dated Enter Date is ☐ (accepted) ☐ (not accepted). (If not accepted, review comments are attached.)

Temporary Egress / Construction Separation

- ☐ The temporary egress plan dated Enter Date has been reviewed by OFPM-DCC (DCC) and / or Kansas State Fire Marshal (OKSFM) and is ☐ (accepted) ☐ (not accepted) as meeting the Kansas Fire Prevention Code (KSA 31-134 and KAR 22-1-1).

Construction Documents

- ☐ Construction Documents have not been submitted for review. Construction documents are required to be submitted.
- ☐ The Construction Documents dated Enter Date have been reviewed for code compliance and are ☐ (accepted) ☐ (not accepted). This review and/or approval of documents for construction shall not be construed to be a permit for, or an approval of, any violation of any of the provisions of the applicable codes. The release of drawings for construction shall not prevent the authority having jurisdiction from requiring the correction of errors in the construction documents and other data.

Project Acceptance Record

Fire Alarm Package

☐ Shop drawings are ☐ **(required)** ☐ **(not required)** to be submitted for review. If shop drawings are required, they are to be submitted and accepted by DCC prior to installation.

☐ Shop drawings dated Enter Date have been reviewed for code compliance and are ☐ **(accepted)**.

This review and/or approval of documents for construction shall not be construed to be a permit for, or an approval of, any violation of any of the provisions of the applicable codes. The release of drawings for construction shall not prevent the authority having jurisdiction from requiring the correction of errors in the construction documents and other data.

Automatic Fire Sprinkler System

☐ Shop drawings are ☐ **(required)** ☐ **(not required)** to be submitted for review. If shop drawings are required, they are to be submitted and accepted by DCC prior to installation.

☐ Shop drawings dated Enter Date have been reviewed and are ☐ **(accepted)**.

This review and/or approval of documents for construction shall not be construed to be a permit for, or an approval of, any violation of any of the provisions of the applicable codes. The release of drawings for construction shall not prevent the authority having jurisdiction from requiring the correction of errors in the construction documents and other data.

Permit to Build (State law, KSA 31-150(e), requires projects owned or operated by Board of Regents to have an approved code footprint prior to the beginning of construction.)

☐ Construction is ☐ **(permitted)** to commence. Projects bid through Design, Construction & Compliance – Construction is permitted when Notice to Proceed is issued. Notice to Proceed will be issued once contracts are complete.

Work shall be installed in accordance with the reviewed construction documents, and any changes made during construction that are not in compliance with the approved construction documents shall be resubmitted for approval as an amendment to the set of construction documents. Construction and work zones shall be separated from occupied areas by one-hour rated construction, per OKSFM guidelines. All designated exits, fire alarms and sprinklers must be available and working at all times a building is occupied. DCC/OKSFM has the authority to verify during routine inspections (either during construction or annually by OKSFM) that completed work complies with the approved code footprint, Kansas Fire Prevention Code, and applicable codes and regulations.

Construction is ☐ **(not permitted)** to commence. Provide construction documents so accessibility and building code requirements can be verified and accepted.

Occupancy

☐ Portion of the building described on the Occupancy Certificate is ☐ **(accepted)** for Occupancy. Occupancy Certificate is attached. (Occupancy permit is required prior to portions of the building being occupied.)

☐ The building is ☐ **(accepted)** for Occupancy. Occupancy permit is attached. (Occupancy permit is required prior to building being occupied.)
